

The Parks at Mill Creek

Approved Roofing Materials April 2015

Re-roofing and major roof repair requires application to and approval from the Architectural Control Committee (ACC). Proposed roofing color will be approved based on complimentary fit to the color palette of the neighborhood homes as determined by the ACC. Modification Application forms available at www.TheParksatMillCreek.com.

Owners should make their own determination of which approved materials are best for their specific application. Owners are responsible for compliance to all governmental requirements and for acquiring any necessary permits.
